

## **The Great Wine Tours**

**by Carey Transportation**

### *Veritas and King Family Wineries*

**K**ing Family Vineyards specializes in the small-scale production of ultra-premium wines that showcase the remarkable qualities of the Monticello American Viticultural Area. All 15 acres of their vineyards are tended by hand throughout the year. The mountain views are breathtaking while one peers out from their large brick patio. WOW is all one can say about this beautiful Vineyard.

**V**eritas Winery is a family business which opened for business in June 2002. The idyllic setting is easy to find but hard to leave, located just off I-64 at the foot of the Blue Ridge Mountains. The unique wines of Veritas are all of high quality, derived from vitis vinifera with the exception of one French hybrid. Their philosophy is to make wine with the classic, old-style principles of Viticulture and Vinification, at the same time using state of the art technology to capture varietal and regional character.

Visit their vineyard, see how they grow their grapes, how they make the wine, and, finally, sit back on their sun-drenched deck, and enjoy the vistas and wondrous beauty of the Blue Ridge while tasting the fruits of their labor. This is truly a family affair.
